

Atlantic Kleen OS-2

Polymeric, Complete-Oil-Rejecting, Mild-Alkaline Cleaner

Atlantic Kleen OS-2 is the 1st alkaline cleaner in the industrial marketplace to reject not only straight petroleum and vegetable oils, but also most SOLUBLE oils and metal working fluids. Atlantic Kleen OS-2 is a blend of biodegradable synthetic detergents, oil demulsifiers, and water conditioners in a convenient liquid form. Atlantic Kleen OS-2 provides a mild cleaning and sheeting action to the rinse solution of all ferrous, aluminum, and yellow metal components.

Atlantic Kleen OS-2 will not and cannot emulsify or saponify oils, and cleans by lifting and floating the soils from the substrate surface. Atlantic Kleen OS-2 is outstanding with certain select oil separation systems, and can readily pass through most in-line micro-filtration systems without plugging. Atlantic Kleen OS-2 contains no free-caustic and completely non-silicated, but has the power to easily clean almost every soil encountered in industrial cleaning processes. Atlantic Kleen OS-2 contains in process amine based rust inhibitors that will provide up to 60-days indoor corrosion protection.

Product Properties:

Appearance:	Clear liquid
Specific Gravity:	1.03
Solubility:	Complete
Flash Point:	None
pH(1%):	9.0
HMIS Rating:	1,0,0
VOC Content:	0.00-lbs/Gallon

Use Information:

Concentration:	2.25 – 4.0% by volume (Initial Charge: 2.75 – 3.00% BV)
Temperature:	100-180°F. (Recommend 130-150° for Optimal Cleaning)
Contact Time:	As available. (Preferably a minimum of 30-seconds)

Precautions: May cause irritation to the eyes upon contact. **INDUSTRIAL USE!**

Packaging: Bulk, 330-tote, 275-tote, 55, 30, 15, and 5-gallon containers.
